About Me

I'm a **full-stack developer** with expertise in building secure, scalable systems across both frontend(**React Js**) and backend. I specialize in designing robust **APIs**, developing intuitive user interfaces, and architecting reliable backend services. I thrive in collaborative, fast-paced environments and enjoy solving complex technical challenges.

Technical Skills

Languages and DataBases: Python, Javascript , C++ , MongoDB and Mysql.

Frameworks: ReactJs , NodeJs , Express js.

Technology: Html/Html5, CSS/CSS3, AJAX, JQuery, Bootstrap, Tailwind CSS, Material UI.

Other Skills: TypeScript, RTK , FAST API, Data Structures and Algorithm , Docker, Git and Github, Data Science.

Experience And Certification

ICE TECHNOLOGY LAB
2024

JUNE 2024 -JULY

Full Stack Developer Training

- Led the **frontend development** of the project, improving user engagement by 20% with user-friendly interface.
- Contributed significantly to **backend development** by creating robust **APIs** to support core project functionality.

INFOSYS SPRINGBOARD

Data Science Using Python Tranee

- Completed Infosys Springboard training in EDA, **Data Visualization, Association Analysis, Time Series Analysis, Machine Learning, and Regression Analysis using Python.**

75WayTechnology

January-2026

Software Developer Intern

Worked at 75 Way Technology as a Software Developer, building a full-stack application using React, TypeScript, Node.js, and MongoDB. Developed a **Collaborative Code Snippet Manager** project with secure authentication (**JWT, OAuth, OTP**), **REST APIs**, and **folder-based organization features**. Designed scalable backend architecture, implemented **protected APIs**, and followed clean coding practices with **Git-based workflows**.

Projects

1 . **Wander-Explore:** | A **fullstack** web app for promoting tourism

November 2024

- Developed a full-stack travel website with interactive destination search, booking functionality, and secure user **authentication** and Integrated **APIs** for location data, implemented **responsive design** and follow MVC Architecture.
- **Credentials for testing** : username : demo5 , password : demo950750
- Live – [Wander-Explore](#) Github - [wander-project-github](#)

2 .**EduManager: A MERN STACK** College Student Management System

January 2025

- Developed **EduManager** using the **MERN** stack, featuring student and admin panels for managing events, assignments, results, and student profiles and implemented interactive data visualizations to track student performance and expertise through **dynamic graphs**.
- **Credentials for testing** : Login As Student
- Live – [EduManager](#) Github - [ASYNC-AVenger-GNDEC-HACKATHON](#)
- Github-Link – [EasyClient](#)

Awards & Achievements

2nd Winner – Internal-college Hackthon

April 2025

Education

Guru Nanak Dev Engineering College Ludhiana

Bachelor of Technology in Information Technology

Aug 2022 – Sep 2026

CGPA – 7.78 (currently in 8th semester)
